BUBBLINGBROOK HOLISTIC SERVICES
By Appointment Only

Pamela "Bubblingbrook" Eubanks, Reiki Master

Reiki attunements are done through the utilization of ancient symbols, motions, and sounds that refine an individual's nervous system to a higher level of energy. The student will experience an increase in energy flowing through their hands, giving them enhanced abilities to heal themselves and others. Reiki can be used on: yourself, others, animals, plants, minerals, food and water to increase healing properties. Reiki levels are taught separately.

Reiki I Attunement & workshop

Level I or First Degree Reiki, initiates the participant to Reiki energy by fine tuning to the Reiki frequencies by a Reiki master. This permanently guides the person to greater healing power. The student learns how to do full body treatments on self and will receive a Reiki treatment and a group healing. This workshop will include intro to Reiki; Reiki principle, lineage, attunement to first symbol, self healing techniques, Reiki and animals, group healing, meditations and introduction to balancing chakras with stones and Reiki.
