**Jan 27th, 2010 6pm to 9pm**

We are coming face to face with our Inner Wisdom and walking into our power as Creative Beings.

This workshop we'll guide you forward through the old paradigms to your own creative expression and vision.

We will assist you in releasing the old reality of limitation and embrace new reality that is based on Love, Freedom, Abundance, and Joy. As you move into this new vibration, our unique talents and abilities will not only be expressed, they will be your gifts to the World.

You will receive the understanding and expansion to walk through this transition in consciousness as a Deliberate Creator.
